

1. K-love serves me as a resident of the local community by offering a unique services with a non interrupted christian atmosphere , that is not to be found anywhere else.

2. If K-LOVE is to be displaced by an LPFM broadcaster is going to left a hugh void that will not be able to be replaced, and in thye way this world is going it is important to have a radio station where people can turn to to find encouragemnt and to find the truth.

3. In todays world of complete bad news in the making only K-LOVE provides music and information to us that gives hope for the future.

We as a family aks that K-LOVE may remain in the air for the benefit of the future of this country.
